

BACK BAY

VETERINARY CLINIC

288 Newbury Street, Boston, MA 02115

Phone: 617 247 CARE

As of June 4th, our hours of operation will be changing. We will no longer be open on Sundays and are modifying Saturday hours to close at 1pm.. We will no longer be open on Sundays and are modifying Saturday hours to close at 1pm. We've extended weeknight hours until 7pm Monday-Thursday to help accommodate those who prefer after work appointments. Our Friday hours will remain the same, 7am-6pm.

These adjustments will ultimately help us serve you better, by allowing us to staff more effectively during the week and provide much needed time off for our team members to spend with their families. We originally opened on Sundays eight years ago to provide care when the only alternative was an emergency facility. The evolution of the veterinary industry to include urgent care has helped bridge that gap and as such we are taking these steps to help protect our team and the value they bring to our patients and their families.

We are fortunate to have urgent care facilities in the neighborhood with whom we have strong relationships. Together we will work seamlessly to ensure the best medical care for your companions when we are not available.

Our triaging service, Guardian Vets, will continue to answer calls during our off hours. A Certified Veterinary Technician will guide you on urgent questions and help determine if emergency care is necessary.

We are grateful for your trust and the privilege of caring for your family members and are committed to continue providing the best care and experience we can offer.

Please reach out with any questions or concerns you may have. We're here and always happy to help.

New hours of operation:

Monday: 7am- 7pm

Tuesday: 7am-7pm

Wednesday: 7am-7pm

Thursday: 7am-7pm

Friday: 7am-6pm

Saturday: 8am-1pm

Sunday: CLOSED

Respectfully yours,

Back Bay Veterinary Clinic
